

Sparked by a responsibility to maneuver and understand a crowd, DJ MAGA has begun to emerge into the competitive music scene. From an early age, the young turntable enthusiast learned the significance of world diversity and its influence in music while growing up in the United Kingdom, America and St. Lucia. Being submerged in many cultures, himself a brew of Sri Lankan and St. Lucian heritage, MAGA's interest in experimenting with various sounds is shaped by life experience. Seizing every opportunity to better his DJ IQ, MAGA aspires to bring together people from all walks of life, all in the name of music. To say he is passionate about music is an understatement. Using turntables as a pallet to recreate uniquely vivid musical canvases, DJ MAGA's appreciation for music has transpired into what looks like a very promising career.

DJ MAGA has opened for internationally acclaimed artists Common, Nas, Beenie Man, Morgan Heritage, Kerwin Du Bois and Kes the Band to name a few. Furthermore, mixes by DJ MAGA have been recognized by renowned music critics MTV IGGY, Metro Magazine and more. There is no space, however big or small, that this music connoisseur doesn't dare to share his unique musical experience.
